

Applicant's undersigned attorney also declares and verifies that this amendment and requested formal entry of the "Sequence Listing" in paper form copy is proper and correct in all respects; and that the enclosed "Sequence Listing" in paper copy form is completely supported by the descriptive content and enabling disclosure of the Specification text originally filed June 22, 2001 as USSN 09/887,145.

Furthermore, applicant's undersigned attorney also declares and verifies that the enclosed "Sequence Listing" submitted in paper form copy does not contain or include any New Matter; and that an initial submission of a computer readable form (CRF) copy of the "Sequence Listing" is also provided, the initial computer readable form (CRF) copy being identical in substantive content to the enclosed initial paper form copy.

Accordingly, this initial paper form copy "Sequence Listing", is to be formally entered into and made part of the Specification; and the formally entered initial paper form copy "Sequence Listings" shall now constitute part of the Specification during the substantive prosecution of this application.
